On the 28th of June, Ulrich Brockdorff-Rantzou comes back from the peace conference with conditions of the Treaty of Versailles that he has to sign. We lose the Danzig Corridor, and a part of Upper Silesia, while the Reichsland Elsass-Lothringen becomes French again, then the north of Schleswig becomes Danish again and the region of Eupen and Malmédy is given to Belgium. We have to give money to France and Belgium for the war reparations because we are considered to be for the only guilty nation. The health of your Peoples before territories

The Peace conference was divided in two different groups. It was because with only one group of discussion, some winners nations (americans, french, british and italians) were disagree on many things; for example, about the division of conquered territories for italia, the peace conditions with losers (Germany, Austria-Hungary).

Those debates were very long and the socials and sanitary problems continu for us, alone without any solutions and help. Today decisions were made and applicated but it's not enough.

Peoples still suffer ! PLEASE POLITICIANS, DO QUICK !

Why our 1st minister left the Peace Conference ?

The Triple Entente has promised many things but they don't give us what they promised.

They have promised alliance, power, money, territories, but we don't have seen anything like this *Coming!*

Triple Entente isn't enough determined for Italian people.

So the 1st minister left the Conference because he wanted *better* for italia.

He said : « I don't want to be humiliated and fooled by others countries. Maybe we have won the war together, maybe they help us and we help them but italia deserves *better*. »

Germany after the war

After loosing the war, Germany is in a difficult position.

The countries of *the* Peace Conference proposed some conditions of peace :

- Germany is not allowed to have military services.
- They can't have more than 100000 soldiers.
- The Rhein frontiers *is* demilitarized.
