

*Key question: why does tourism have positive but also negative effects on the world?*

### Step 1 - Periodize

- 1 - How is tourism organized: where (in which cities, countries, areas) does it happen?
- 2 - Who are the tourists: where do they mainly come from? Why? Give some reasons.

### Step 2 - Understand

- 3 - Which are the positive effects of tourism on populations and territories?
- 4 - Which are the negative effects of tourism on populations, territories and the environment?
- 5 - Give some accurate local examples.

### Step 3 - Draw a summary

- 6 - Select all the important information about the positive and negative effects of tourism on the world.
- 7 - Try to draw each important idea; then link all your drawings in a **visual map** to answer the key question.
