

Key question: why the Enlightenment did modify the European opinion?

Step 1 - Periodize

- 1 - What is the Enlightenment? Where (which cities, countries) and when (which century) did it happen?
- 2 - Who are the people participating to the Enlightenment? Why? Give some names, books, ideas.

Step 2 - Understand

- 3 - Which are the intellectual, philosophical, scientific, political, religious purposes of the Enlightenment?
- 4 - Collect some accurate examples for each theme.

Step 3 - Draw a summary

- 5 - Select the most important information for you, the most famous authors, philosophers or scientists for you, linked to the Enlightenment.
- 6 - Try to draw each important idea; then link all your drawings in a **visual map** to answer the key question.

To help you collect more ideas, complete your visual map:
